

```
// Sample malicious JavaScript code
```

```
// Function declaration
```

```
function maliciousFunction() {
```

```
    // Using eval to execute code
```

```
    eval("alert('This is a malicious code executed via eval');");
```

```
    // Using document.write with unescape
```

```
    document.write(unescape("%3Cscript%3Ealert('Malicious  
script injected')%3C/script%3E"));
```

```
}
```
